Attention: Gary McCooeye

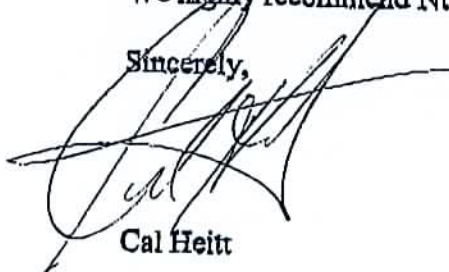

Dear Gary,

Fastech Tire has always appreciated the great service your company provides with ADTEL. Over the past fifteen years our company has definitely benefited by receiving regularly scheduled production updates which promote our company while our customers are on hold. Great value and awesome service!

When our company was researching the market for telephone equipment, we chose Nutec Telephone Products, as you provided a full analysis of our telecommunication requirements. We now have an NEC phone system with features (such as a paging system, voicemail, a wireless headset plus a cordless phone), which improve our communications with our customers and within the company.

We highly recommend Nutec Telephones and your expertise. Thanks again!

Sincerely,

Cal Heitt

Owner / President
