**Re: New Phone System**

I would like to send out a note of thanks to you and your team for the excellent service you provided for Hartwig Architecture Inc. during our move. We really enjoy the addition of our new NEC Aspire telephone system.

Shelley Tardif was able to handle all the Telus paperwork and details for us, which was a huge relief with all the other aspects of the move that we had to handle. She was not only efficient, but was always pleasant and quick to answer calls and questions.

Clayton Sielski handled all the initial programming, labeling, and training. He was able to answer all the individual questions our employees had, and we appreciated his time.

Terry Morin came in for some final programming, and answered any residual questions. He is very personable and professional, and represents your company well.

All in all, Gary, I'd like to thank you and the AdTel team for not only making our move go smoother, but for the excellent phone system you recommended.

Sincerely,  
Hartwig Architecture Inc.

Wendy Werkman  
Business Manager
