Dear Gary:

I would like to thank you and Nutec Telephone Products for our new NEC phone system. As discussed, we required a Total Solution for our new Edmonton office. The new technology that Nutec offered us made it easy to make our decision to use your service.

1. Computer and telephone labeling was outstanding for our new facilities.
2. NEC Aspire phone system with VoIP capabilities and a soft phone is beneficial as we use this from China. Also the Unified Messaging will definitely be use at a later date.
3. Customization with your NEC product was a major factor in our decision.
4. Clayton Sielski who did all of the cabling and Dave Beharrell with all of the programming and training, were incredibly knowledgeable and helpful.

We at S&D International will recommend your organization to other businesses. Thank you again, for the wonderful service your company has provided!

Best Regards,
